### Symbol Legend

Look for these icons throughout this flyer to identify products with special benefits or important ordering information:

Assembly  
required.

Products made  
with at least  
10% total  
recycled content.

Products that  
must be  
shipped  
freight.

Products that meet the  
recovered material content  
ranges specified by the EPA  
through the Comprehensive  
Procurement Guideline (CPG)

Identifies  
value packs.

Because there is no universally accepted standard to designate products as environmentally preferable, we have adopted the green leaf symbol to highlight products that have one or more of the following attributes: reduced VOCs, compostable, biodegradable, contains recycled content, or other environmental attributes that make this product<sup>†</sup> less harmful to the environment or humans, when compared to its traditional counterparts. Many of the products marked with the green leaf symbol have been endorsed by third-party certifying organizations, and where applicable, the certifying body's logo appears next to the product's name. Please note that we have not independently verified the environmental attributes. <sup>†</sup>These environmental attributes refer to the products themselves and not the processes for manufacturing and transporting the products.
