**Symbol Legend** 

Look for these icons throughout this flyer to identify products with special benefits or important ordering information:

Because there is no universally accepted standard to designate products as environmentally preferable, we have adopted the green leaf symbol to highlight products that have one or more of the following attributes: reduced VOCs, compostable, biodegradable, contains recycled content, or other environmental attributes that make this product less harmful to the environment or humans, when compared to its traditional counterparts. Many of the products marked with the green leaf symbol have been enforced by thirdhardty.
